

The WoodShed

Every Monday morning a group of our more mature residents, supervised by some slightly less mature helpers meet at the Addingham Scout Hut, on Stockinger Lane to do woodwork and a variety of crafts.

At the Shed, we make bird boxes, bird feeders, hedgehog houses, bug hotels and planters all from recycled wood and other materials.

If you are interested in buying any of our products please call in any Monday from 10:00am to 12:00.

We have a few items in stock for immediate sale such as feeders, tit and robin nest boxes. We can make any specific items such as hedgehog houses, nesting boxes for particular species or bat boxes to order. We also refurbish and repair small wooden items.

If you are not able to visit us on Mondays, we have a stall at the Civic Society's Spring Fair & Autumn and at other village events throughout the year.

If you are interested in volunteering with the work or have a source of recycled wood (especially decking for planters) we would love to hear from you.
